BUSINESS BAY, DUBAI

Marasi Residences

Waterfront studio & one-bedroom residences

STARTING FROM

AED 650,000

approx. USD 177,000 / EUR 150,000

A canal-side address at the centre of the new Dubai.

Positioned along the Dubai Water Canal in the heart of Business Bay, these studio and one-bedroom residences are built for the investor who wants a genuinely liquid asset. Floor-to-ceiling glazing frames the waterway and the Downtown skyline beyond, while the tower places tenants a five-minute drive from DIFC and a short walk from the Bay Avenue promenade.

Compact, efficiently planned and priced at the most rentable point in the Dubai market, this is the entry tier that consistently sees the strongest occupancy and the fastest resale.

RESIDENCE FEATURES

- ◆ Direct Dubai Water Canal frontage
- ◆ Infinity pool & sky lounge on level 32
- ◆ Fully-fitted designer kitchens
- ◆ Smart-home climate & lighting
- ◆ 24h concierge and valet

LOCATION

THE INVESTMENT CASE

The lowest entry point in this shortlist, in the district with Dubai's deepest tenant pool. Short-let permitted, making it equally suited to serviced-apartment operators and long-term hold.

DUBAI HILLS CORRIDOR, DUBAI

Sidra Gardens

Family townhouses near Dubai Hills

STARTING FROM

AED 2,100,000

approx. USD 570,000 / EUR 490,000

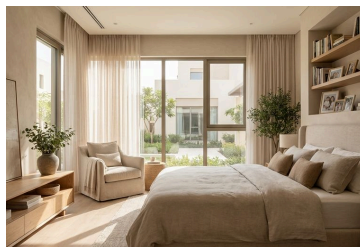

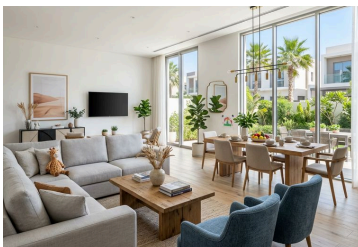

The address families move to and stay in.

A gated townhouse community built around a central park, within the school catchment that drives most of Dubai's family relocation demand. Homes are arranged over two floors with a private rear garden, a covered terrace and a dedicated maid's room off the utility corridor.

This is the part of the market that behaves least like a speculative asset and most like a home: occupancy stays high, tenants renew, and resale is driven by families rather than investors.

RESIDENCE FEATURES

- ◆ Private landscaped rear garden
- ◆ Two covered parking bays
- ◆ Maid's room with en-suite
- ◆ Community park & pool
- ◆ Nursery and schools within the master plan
- ◆ Cycle route to Dubai Hills Mall

LOCATION

THE INVESTMENT CASE

Lower headline yield than the apartments, but materially lower churn — the family segment renews rather than rotates, which protects net income across the hold.

GATED VILLA COMMUNITY, DUBAI

Al Barari Reserve

Private-pool villas in a gated reserve

STARTING FROM

AED 4,500,000

approx. USD 1.23M / EUR 1.05M

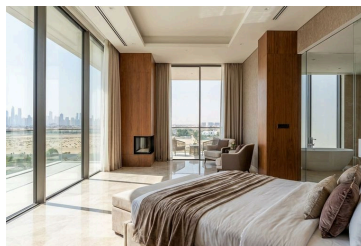

Space, privacy, and a pool of your own.

Detached villas set on generous plots inside a gated, low-density reserve, each with a private pool, a double-height entrance hall and a ground-floor guest suite. Living space opens fully onto a shaded terrace, and the upper floor is given over entirely to bedrooms, each en-suite.

Villa stock inside established gated communities is the most supply-constrained segment in Dubai, and the segment where end-user demand has held firmest through every recent cycle.

RESIDENCE FEATURES

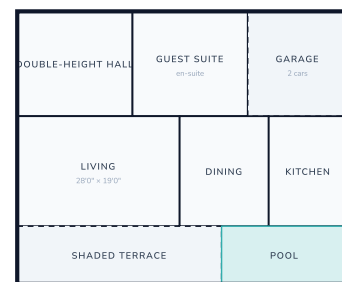

- ◆ Private swimming pool & deck
- ◆ Double-height entrance hall
- ◆ Ground-floor guest suite
- ◆ Landscaped garden on all sides
- ◆ Two-car covered garage
- ◆ Gated, 24h patrolled community
