DOWNTOWN DUBAI

The Opus Collection

Two-bedroom residences, Downtown Dubai

STARTING FROM

AED 1,400,000

approx. USD 380,000 / EUR 330,000

Burj views, on a payment plan that works.

Two-bedroom residences a few streets from the Burj Khalifa and the Dubai Mall, laid out with the generous proportions the Downtown market has quietly stopped building. Each unit takes a corner aspect, with a wraparound terrace and a separated service kitchen behind the main entertaining space.

Downtown remains the single most searched district in Dubai for both tenants and end-users, and a 2026 handover means income can begin while much of the surrounding pipeline is still under construction.

RESIDENCE FEATURES

- ◆ Burj Khalifa and Fountain outlooks
- ◆ Two secure parking bays
- ◆ Wraparound private terrace
- ◆ Residents' gym, spa & pool deck
- ◆ Separate service kitchen
- ◆ Walkable to Dubai Mall

LOCATION

THE INVESTMENT CASE

The shortlist's most versatile asset: strong enough as a family home to hold end-user value, and central enough to let quickly if the plan changes. Earliest handover of the three.

DUBAI HILLS CORRIDOR, DUBAI

Sidra Gardens

Family townhouses near Dubai Hills

STARTING FROM

AED 2,100,000

approx. USD 570,000 / EUR 490,000

The address families move to and stay in.

A gated townhouse community built around a central park, within the school catchment that drives most of Dubai's family relocation demand. Homes are arranged over two floors with a private rear garden, a covered terrace and a dedicated maid's room off the utility corridor.

This is the part of the market that behaves least like a speculative asset and most like a home: occupancy stays high, tenants renew, and resale is driven by families rather than investors.

RESIDENCE FEATURES

- ◆ Private landscaped rear garden
- ◆ Two covered parking bays
- ◆ Maid's room with en-suite
- ◆ Community park & pool
- ◆ Nursery and schools within the master plan
- ◆ Cycle route to Dubai Hills Mall

LOCATION

THE INVESTMENT CASE

Lower headline yield than the apartments, but materially lower churn — the family segment renews rather than rotates, which protects net income across the hold.

GATED VILLA COMMUNITY, DUBAI

Al Barari Reserve

Private-pool villas in a gated reserve

STARTING FROM

AED 4,500,000

approx. USD 1.23M / EUR 1.05M

Space, privacy, and a pool of your own.

Detached villas set on generous plots inside a gated, low-density reserve, each with a private pool, a double-height entrance hall and a ground-floor guest suite. Living space opens fully onto a shaded terrace, and the upper floor is given over entirely to bedrooms, each en-suite.

Villa stock inside established gated communities is the most supply-constrained segment in Dubai, and the segment where end-user demand has held firmest through every recent cycle.

RESIDENCE FEATURES

- ◆ Private swimming pool & deck
- ◆ Double-height entrance hall
- ◆ Ground-floor guest suite
- ◆ Landscaped garden on all sides
- ◆ Two-car covered garage
- ◆ Gated, 24h patrolled community

BEDROOMS	3 & 4 Bedrooms
BUILT-UP AREA	3,400 – 4,100 sq ft
