DUBAI HILLS CORRIDOR, DUBAI

Sidra Gardens

Family townhouses near Dubai Hills

STARTING FROM

AED 2,100,000

approx. USD 570,000 / EUR 490,000

The address families move to and stay in.

A gated townhouse community built around a central park, within the school catchment that drives most of Dubai's family relocation demand. Homes are arranged over two floors with a private rear garden, a covered terrace and a dedicated maid's room off the utility corridor.

This is the part of the market that behaves least like a speculative asset and most like a home: occupancy stays high, tenants renew, and resale is driven by families rather than investors.

RESIDENCE FEATURES

- ◆ Private landscaped rear garden
- ◆ Two covered parking bays
- ◆ Maid's room with en-suite
- ◆ Community park & pool
- ◆ Nursery and schools within the master plan
- ◆ Cycle route to Dubai Hills Mall

LOCATION

THE INVESTMENT CASE

Lower headline yield than the apartments, but materially lower churn — the family segment renews rather than rotates, which protects net income across the hold.

GATED VILLA COMMUNITY, DUBAI

Al Barari Reserve

Private-pool villas in a gated reserve

STARTING FROM

AED 4,500,000

approx. USD 1.23M / EUR 1.05M

Space, privacy, and a pool of your own.

Detached villas set on generous plots inside a gated, low-density reserve, each with a private pool, a double-height entrance hall and a ground-floor guest suite. Living space opens fully onto a shaded terrace, and the upper floor is given over entirely to bedrooms, each en-suite.

Villa stock inside established gated communities is the most supply-constrained segment in Dubai, and the segment where end-user demand has held firmest through every recent cycle.

RESIDENCE FEATURES

- ◆ Private swimming pool & deck
- ◆ Double-height entrance hall
- ◆ Ground-floor guest suite
- ◆ Landscaped garden on all sides
- ◆ Two-car covered garage
- ◆ Gated, 24h patrolled community

THE INVESTMENT CASE

Bought for lifestyle first and capital appreciation second. Yield is the lowest here by design — this is the hold that compounds on land value and scarcity, not on rent.

BRANDED-RESIDENCE CORRIDOR, DUBAI

The Signature Villas

Branded residences on the growth corridor

STARTING FROM

AED 5,800,000

approx. USD 1.58M / EUR 1.35M

A branded address, on the corridor Dubai is building toward.

Architect-led villas delivered under a hospitality brand, with interiors, landscaping and residence management specified to hotel standard. Each home carries a private pool, a rooftop entertaining deck and staff quarters accessed independently of the main house.

Branded residences have consistently transacted at a premium to comparable unbranded stock across the emirate, and the surrounding corridor is the focus of the current infrastructure programme.

RESIDENCE FEATURES

- ◆ Hotel-brand residence management
- ◆ Private pool & rooftop terrace
- ◆ Independent staff quarters
- ◆ Designer-specified interiors
- ◆ Priority access to brand facilities
- ◆ Positioned on the new growth corridor
