

PRIVATE SHORTLIST

Selected Off-Plan Opportunities

Bali · Prepared 30 July 2026

Canggu Sunset Villas

Canggu, Bali · From USD 185,000

Ubud Jungle Residences

Ubud, Bali · From USD 320,000

Uluwatu Cliff Estates

Uluwatu, Bali · From USD 525,000

CANGGU, BALI

Canggu Sunset Villas

One & two-bedroom villas, Canggu

STARTING FROM

USD 185,000

leasehold, 25 years + extension

The strongest yielding asset on this shortlist.

Compact private-pool villas in the Canggu tourism belt, minutes from Berawa beach and the restaurant strip that has made this the highest-occupancy short-let market in Southeast Asia. Open-sided living pavilions, a private plunge pool and a tropical garden to every unit.

Delivered with a management operator already in place, so the villa can enter the nightly-rate market from handover without the owner sourcing staff, listings or housekeeping.

RESIDENCE FEATURES

- ◆ Private plunge pool per villa
- ◆ Open-air living pavilion
- ◆ Managed short-let programme included
- ◆ Furniture package included
- ◆ 8 minutes to Berawa beach
- ◆ Freehold-equivalent leasehold structure

AT A GLANCE

TYPE	Villa
BEDROOMS	1 & 2 Bedrooms
BUILT-UP AREA	1,080 – 1,500 sq ft
HANDOVER	Q3 2026
PROJECTED YIELD	10 – 14%
PAYMENT	40 / 60 construction-linked

LOCATION

THE INVESTMENT CASE

Double-digit projected yield, driven by nightly rates rather than annual leases. Highest income of the three — and the shortest route from handover to first revenue.

UBUD, BALI

Ubud Jungle Residences

Lifestyle villas above the Ayung valley

STARTING FROM
USD 320,000
leasehold, 30 years + extension

Built to live in, not only to let.

Villas set into the ridge above the Ayung river valley, each oriented to the jungle rather than to its neighbours. Natural stone, reclaimed teak and full-height sliding walls open the living pavilion onto an infinity pool that reads straight into the tree canopy.

Ubud draws the longer-staying, higher-spending end of the Bali market — wellness, remote-work and repeat guests — which produces steadier occupancy across the year than the beach districts.

RESIDENCE FEATURES

- ◆ Infinity pool over the valley
- ◆ Reclaimed teak & natural stone
- ◆ Full-height sliding glass walls
- ◆ Outdoor stone bathroom
- ◆ Landscaped tropical gardens
- ◆ Managed rental optional, not required

AT A GLANCE

TYPE	Villa
BEDROOMS	2 & 3 Bedrooms
BUILT-UP AREA	1,830 – 2,250 sq ft
HANDOVER	Q1 2027
PROJECTED YIELD	7 – 9%
PAYMENT	30 / 70 construction-linked

LOCATION

THE INVESTMENT CASE

The lifestyle hold in Bali: strong enough on yield to justify itself, but bought principally as somewhere the owner genuinely uses. Longer lease term than the Canggu stock.

ULUWATU, BALI

Uluwatu Cliff Estates

Resort-scale villas on the Bukit peninsula

STARTING FROM
USD 525,000

leasehold, 30 years + extension

Ocean horizon, resort scale, private title.

Cliff-side estates on the Bukit peninsula, positioned for the uninterrupted Indian Ocean horizon that defines the Uluwatu market. Each villa runs to three or four en-suite bedrooms around a full-length infinity pool, with a separate entertaining pavilion and staff kitchen.

This is the top of the Bali market — the bracket that commands the highest nightly rates on the island and attracts multi-week group bookings rather than short stays.

RESIDENCE FEATURES

- ◆ Uninterrupted ocean horizon
- ◆ Full-length infinity pool
- ◆ All bedrooms en-suite
- ◆ Separate entertaining pavilion
- ◆ Staff kitchen & quarters
- ◆ Managed by a resort operator

AT A GLANCE

TYPE	Villa
BEDROOMS	3 & 4 Bedrooms
BUILT-UP AREA	2,900 – 3,600 sq ft
HANDOVER	Q2 2027
PROJECTED YIELD	9 – 12%
PAYMENT	40 / 60 construction-linked

LOCATION

THE INVESTMENT CASE

The highest absolute income on this shortlist. Group and multi-week bookings lift both the nightly rate and the average length of stay, which is what drives Uluwatu's yield premium.
