UBUD, BALI

Ubud Jungle Residences

Lifestyle villas above the Ayung valley

STARTING FROM

USD 320,000

leasehold, 30 years + extension

Built to live in, not only to let.

Villas set into the ridge above the Ayung river valley, each oriented to the jungle rather than to its neighbours. Natural stone, reclaimed teak and full-height sliding walls open the living pavilion onto an infinity pool that reads straight into the tree canopy.

Ubud draws the longer-staying, higher-spending end of the Bali market — wellness, remote-work and repeat guests — which produces steadier occupancy across the year than the beach districts.

RESIDENCE FEATURES

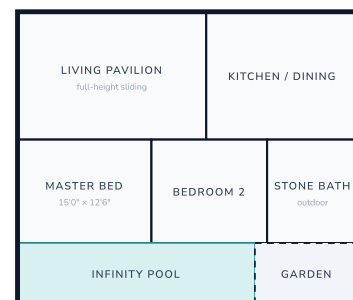

- ◆ Infinity pool over the valley
- ◆ Reclaimed teak & natural stone
- ◆ Full-height sliding glass walls
- ◆ Outdoor stone bathroom
- ◆ Landscaped tropical gardens
- ◆ Managed rental optional, not required

THE INVESTMENT CASE

The lifestyle hold in Bali: strong enough on yield to justify itself, but bought principally as somewhere the owner genuinely uses. Longer lease term than the Canggu stock.
