1-Bed Apartment, Lagoon Views 12

HANDOVER SOON

Prepared by Aegean John Clarke

BARNES International Realty is pleased to offer this residence at DAMAC Lagoons. This limited collection offers direct lagoon-facing apartments designed for lifestyle-driven buyers and yield-focused investors.

Set across low-rise G+6 buildings in the Monte Carlo and Marbella clusters, the development delivers a more private, low-density environment — a key driver for both rental demand and long-term value.

Residents benefit from swimmable crystal lagoons, white sandy beaches, beach clubs, floating pods, sunset bars, and curated social spaces, complemented by outdoor yoga areas, spa facilities, an aqua gym, an outdoor cinema, and themed gardens.

Strategically located within reach of Dubai Marina, Expo City, and Mall of the Emirates, the community balances accessibility with resort-style privacy. Lagoon-facing units remain the most liquid and in-demand stock within the community, positioning the asset for both income generation and capital appreciation.
