FOR NEW DRIVERS

How working with Rovex runs

From your first message to your first shift.

1 Apply on WhatsApp

Answer two quick questions about your licence and your visa. If you meet both, you receive this guide.

2 Send your documents

Your driving licence, visa page and passport, and your CV if you have one. Send clear photos in the same WhatsApp chat, or bring them to the office. The Rovex team reviews them and replies in the chat.

3 Book and attend training

Pick a session that suits you. You get a reminder before it. Training covers:

- Chauffeur etiquette and grooming
- Zofeur app use
- Ride acceptance, navigation and support
- Customer service and communication
- Road safety and defensive-driving refreshers

4 Uniform and approval

After training, collect your uniform and complete your approval at the Rovex uniform and approval centre.

5 Start driving

Your onboarding team confirms your shift pattern and first duty with you on WhatsApp.
