CREEK-SIDE DISTRICT, DUBAI

Alcove Residences

One & two-bedroom residences, Creek-side

STARTING FROM

AED 1,450,000

approx. USD 395,000 / EUR 365,000

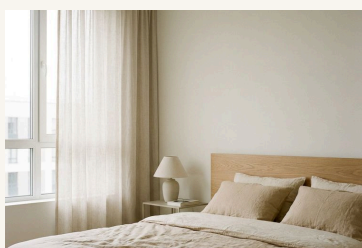

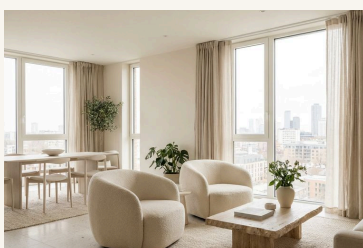

The mid-market apartment that behaves like a family home.

One and two-bedroom residences in a low-rise cluster set back from the water, planned with the wider hallways and real storage that most towers in this price band quietly leave out. Every unit takes a dual aspect, and the two-bedroom layouts separate the second bedroom from the main suite across the living space rather than stacking them side by side.

The Creek-side corridor has absorbed new supply faster than any other emerging district over the last three cycles, driven by tenants priced out of Downtown who are not willing to move further from the centre.

RESIDENCE FEATURES

- Dual-aspect layouts throughout
- Separated second bedroom
- Full-height glazing to the living space
- Landscaped podium deck and lap pool
- Covered parking to every unit
- Metro and marina both walkable

THE INVESTMENT CASE

The most balanced asset on this shortlist. Yield holds close to the entry tier while the two-bedroom layouts keep it lettable to families, which is what protects occupancy when studio supply spikes.

WHY DUBAI

What makes the numbers work

4–9%

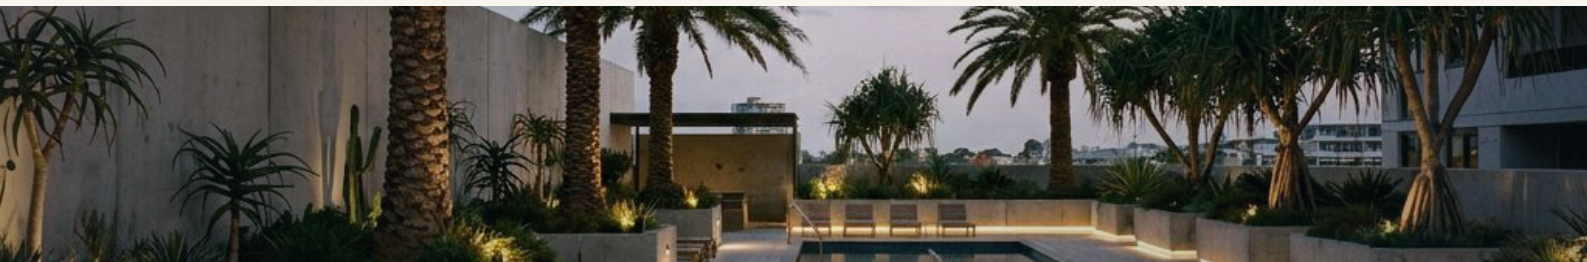

Gross rental yields across the residences in this shortlist

0%

Personal income tax, capital gains tax and annual property tax

10 years

Renewable residency available to property investors from AED 2M

HOW THIS PREVIEW WAS BUILT

Your budget, not a mailing list

The range you tapped decides what appears here, and every residence was checked against it before it reached this page.

Budget as a range, not a ceiling

One option usually sits above where you said, on purpose. It is worth seeing what the next tier buys before you rule it out.

Illustrative, and clearly so

These are composite examples of what is available at each level, not live units. Nothing here is a listing you can reserve today.
