UPTOWN DUBAI (DMCC)

Marlowe House

Two-bedroom residences, Uptown Dubai

STARTING FROM

AED 2,950,000

approx. USD 803,000 / EUR 742,000

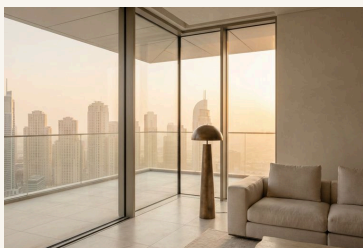

Skyline-facing two-beds, at the scale the market stopped building.

Two-bedroom residences in the Uptown Dubai district, each taking a corner aspect with a wraparound terrace and a separated service kitchen behind the main entertaining space. Ceilings run to three metres and the glazing is floor-to-ceiling on two elevations, so the Burj Khalifa and the skyline behind it read from the living space rather than from one window.

Uptown sits on the DMCC side of the city, which means an occupier is inside the free-zone employment cluster rather than commuting into it — the single strongest driver of renewal rates in this bracket.

RESIDENCE FEATURES

- Panoramic Burj Khalifa and skyline outlook
- Wraparound private terrace
- Separate service kitchen
- Three-metre ceilings
- Two secure parking bays
- Residents' gym, spa and pool deck

LOCATION

THE INVESTMENT CASE

The premium apartment play here. Larger than almost anything new at this price, which is what gives it end-user resale strength on top of the rental case.

HOW THIS PREVIEW WAS BUILT

Your budget, not a mailing list

The range you tapped decides what appears here, and every residence was checked against it before it reached this page.

Budget as a range, not a ceiling

One option usually sits above where you said, on purpose. It is worth seeing what the next tier buys before you rule it out.

Illustrative, and clearly so

These are composite examples of what is available at each level, not live units. Nothing here is a listing you can reserve today.
