GATED RESERVE, DUBAI

Halcyon Reserve

Private-pool villas in a gated reserve

STARTING FROM

AED 6,900,000

approx. USD 1.88M / EUR 1.74M

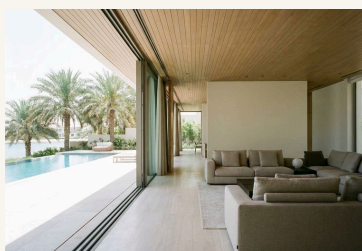

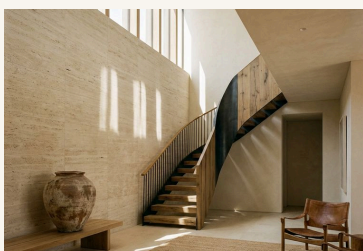

Space, privacy, and a pool of your own.

Detached villas on generous plots inside a gated, low-density reserve. Each carries a private pool, a double-height reception hall, a ground-floor guest suite and staff quarters reached independently of the main house. Living space opens fully onto a shaded deck, and the entire upper floor is given over to bedrooms, every one en-suite.

Villa stock inside established gated communities is the most supply-constrained segment in the emirate, and the segment where end-user demand has held firmest through every recent cycle.

RESIDENCE FEATURES

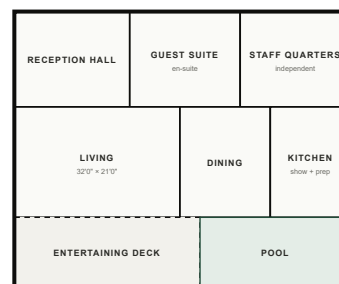

- Private swimming pool and deck
- Double-height reception hall
- Ground-floor guest suite
- Independent staff quarters
- Landscaped garden on all sides
- Gated, patrolled, low density

THE INVESTMENT CASE

Bought for the house first and the return second. The yield is the lowest here by design — this is the hold that compounds on land value and scarcity rather than on rent.

WHY DUBAI

What makes the numbers work

HOW THIS PREVIEW WAS BUILT

Your budget, not a mailing list

The range you tapped decides what appears here, and every residence was checked against it before it reached this page.

Budget as a range, not a ceiling

One option usually sits above where you said, on purpose. It is worth seeing what the next tier buys before you rule it out.

Illustrative, and clearly so

These are composite examples of what is available at each level, not live units. Nothing here is a listing you can reserve today.

Important: The residences shown in this document are illustrative, composite examples prepared to demonstrate the type of opportunity available. They are not currently-available units, and the imagery, floor plans, pricing and handover dates shown are indicative only. Figures are estimates, are not a guarantee of return, and do not constitute financial advice. Any actual purchase is subject to the developer's own terms, availability and the applicable regulations.
