HARBOUR-SIDE DISTRICT, DUBAI

Marina Crest Residences

Studio, one & two-bedroom residences, harbour-side

STARTING FROM

AED 1,350,000

approx. USD 368,000 / EUR 340,000

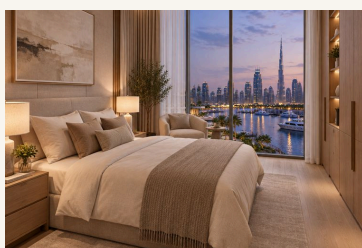

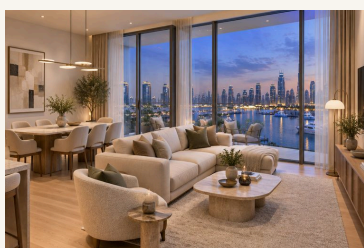

A harbour address, launching at the entry point of the waterfront market.

Studio, one and two-bedroom residences in a single tower set back from the harbour promenade, with the living space of every unit turned toward the water. The mix is weighted to the smaller layouts the waterfront market actually absorbs, and the two-bedroom plans separate the second bedroom from the main suite across the living space rather than stacking them along one corridor.

Waterfront stock at this price point is the narrowest band of supply in the emirate: most harbour-side launches open well above it, and most product at this price sits inland. That gap is the whole case for the building.

RESIDENCE FEATURES

- Harbour-facing living space
- Residents' pool deck and gym
- Fitted kitchens throughout
- Direct access to the promenade
- Covered parking to every unit
- 24-hour concierge

LOCATION

THE INVESTMENT CASE

An entry-priced position in a waterfront district, which is the combination that historically holds occupancy through a supply cycle. The 60 / 40 plan carries most of the cost past handover.

HOW THIS PREVIEW WAS BUILT

Your budget, not a mailing list

The range you tapped decides what appears here, and every residence was checked against it before it reached this page.

Budget as a range, not a ceiling

One option usually sits above where you said, on purpose. It is worth seeing what the next tier buys before you rule it out.

Illustrative, and clearly so

These are composite examples of what is available at each level, not live units. Nothing here is a listing you can reserve today.
